

What is the Value of Appropriate Care?

Let ISAAC identify inappropriate practice patterns to help cut costs, decrease waste, and increase quality of care.

Overtreatment is one of the root causes of the affordable care crisis, accounting for

\$760 billion
in annual costs associated with inappropriate care*.

*Shrank, WH et al. Waste in US Healthcare System: Estimated Costs and Potential Savings. JAMA. 2019

Through its partnership with the Global Appropriateness Measures Group (GAM), founded by renowned Dr. Marty Makary, Cedar Gate has embedded GAM's algorithm metrics into ISAAC, a cloud-based enterprise performance management platform. ISAAC enables payers, providers and self-insured employers to optimize all risk-based contracts, reduce medical spend, improve medical loss ratios and improve provider network and clinical performance – **all on a single platform.**

Unified Value-Based Care Platform

Cedar Gate empowers payers, providers, employers and administrative services organizations to excel at value-based care. Our unified technology and services platform delivers timely and actionable analytics, clear business intelligence insights, and administrative solutions that improve care delivery at any point on the value-based care continuum. The result?

Better Outcomes For Everyone®

www.cedargate.com

By delivering Global Appropriateness Measures (GAM) in ISAAC, Cedar Gate provides:

Crystal clear and easily-calculated indicators of performance that disclose inappropriate clinical variations

Actionable data to create physician-specific performance reports that incentivize “outlier” physicians to modify their behavior through peer-to-peer comparisons

Evidence of inappropriate medical and cost risk to patients

Discover ISAAC’s capabilities using GAM by calling **203.930.5500** or email learnmore@cedargate.com.
